

**RB MACHINE & DESIGN INC.**

**RB CUSTOM COLLETS**

Turn to RB Machine & Design for custom or replacement collets. We specialize in collets with minimum inside dimensions of 1/4" or outside diameters to over 20". RB cost effectively alters standard collets to fit unique shapes or sizes.

\*The Above RB offset collet for crankshaft turning is designed for easy collet replacement. Collet simply unscrews to enable an easy collet change.

\*If you require high performance collets, RB can enhance any collet with titanium nitride or impregnate with tungsten carbide. We also seal slots to prevent contamination.

RB Machine designs and builds to your specific needs. With over 20 years of reliable experience, we respond promptly with intelligent and practical solutions. Simply telephone or FAX.
