

RB MACHINE & DESIGN INC.

RB Machine & Design specializes in precision hydraulic mandrels for I.D. or O.D. gripping. Meeting or exceeding your demanding tolerances is our business.

RB HYDRAULIC MANDRELS

* .0002 TIR minimum repeatability on hydraulic sleeve mandrels.

* Mandrels can be mounted to a machine spindle nose, between centers, to multiple tombstone fixturing, and many other special applications.

RB Machine designs and builds to your specific needs. With over 20 years of reliable experience, we respond promptly with intelligent and practical solutions. Simply telephone or FAX.
