

RB MACHINE & DESIGN INC.

RB CUSTOM DESIGN & BUILD

RB Machine & Design specializes in Hydraulic Actuated Collet fixtures with standard replaceable pads. Meeting or exceeding your demanding tolerances is our business.

- Eight station 3" capacity Hydraulic Actuated Collet fixture with standard replaceable pads. Twin pallet load- unload system for a machining center.

- Off machine quick disconnect hydraulic power source is used to lock or release collets in the fixture.
- Each collet chuck in the fixture is independently powered.
- Thru hole chuck design allows chips to fall thru to sub plate and be washed off.

RB Machine designs and builds to your specific needs. With over 20 years of reliable experience, we respond promptly with intelligent and practical solutions. Simply telephone or FAX.
